Blue Ridge Conservation Alliance 2022 Winter Session

The Blue Ridge Conservation Alliance (BRCA) is dedicated to preserving and protecting a highly threatened portion of the Blue Ridge Mountains stretching from the Shenandoah National Park to the Potomac River. In 2022, BRCA partners will be hosting four sessions to highlight programs, research, projects, and collaboration!

Goose Creek Watch

Since August of 2021, The Goose Creek Association has been monitoring 6 key sites on Goose Creek in partnership with The Friends of Shenandoah River and its laboratory at Shenandoah University. They will be adding benthic monitoring results in the near future in partnership with Loudoun Wildlife Conservancy. Additionally, The Downstream Project is providing Creek Watch web integrations and data visualizations utilizing the Water Reporter application. Be sure to tune in on January 27th to learn more about this exciting collaboration, as well as the health of our iconic Goose Creek!

Date: January 27

Location: Virtual

Time: 3:30 – 5 PM
